- Worked on an E-commerce website using existing react template.
- Created functions for bulk updating products from csv file.

PROJECTS

QIB Logistics **Logistics and Transport Website- Canada** **qiblogistics.com**
QIB Logistics is a Canadian-based logistics company. The landing page was created by gathering client inputs, including their goals and brand guidelines. The page was developed using Next.js and Tailwind CSS and hosted on Netlify, with the entire project completed within a week.

Klashra **Travel Booking Website with Payment System** **klashra**
Klashra is a Dubai-based travel booking site built with Next.js and Node.js. It includes Stripe for payments and is hosted on Netlify. Performance was optimized by managing large requests using cron jobs and defer mechanisms.

TaxGPT **AI Whatsapp chat bot for Tax questions - Dubai** **whatsapp**
TaxGPT is a WhatsApp bot specializing in tax-related inquiries. Its AI functionality is powered by Pinecone and OpenAI, with a robust Node.js codebase. The application is seamlessly integrated with WhatsApp through Twilio and is hosted on AWS EC2 for optimal performance and reliability.

Toyow **Toyow- NFT Marketplace** **toyow.com**
Toyow is an NFT Markeplace which mainly has art collections of famous artists. It was developed using Nextjs and Nodejs.

EDUCATION

Bachelor's degree **B.Tech Computer Science and Engineering** **8.5 GPA**
